No. 424.—In exercise of the powers conferred by section 6 of the Scheduled Districts Act, 1874 (XIV of 1874), the Governor in Council is pleased to lay down the following rules to facilitate the execution of works in the Agency tracts:—

1. The rules in the Public Works Department and Public Works Account Codes as modified by the amendments appended to this notification (Appendix I) should be followed by the officers of the Public Works Department and by the Agents and their subordinates acting as Public works disbursers in the execution of works in the Agency tracts which are debitable to "41. Civil Works".

2. In respect of the execution of the works debitable to other heads, e.g., "22. General Administration," "31. Education", etc., the rules in articles 207 to 214 of the Madras Financial and Account Code, Volume I, should continue to be followed by the Agents and their subordinates in all the Agency tracts.

3. In the Ganjam Agency where a system of employing unskilled labour called 'Vetti labour' is prevalent the procedure described in the rules which are appended to this notification (Appendix II), should be followed so far as unskilled labour is concerned.

APPENDIX I.

Substitute the following for the note under clause (d) of paragraph 291 of the Madras Public Works Account Code:—

The rule that a Subdivisional Officer should pass all muster rolls may be relaxed by the Executive Engineer in exceptional cases, where its enforcement will lead to objectionable delays, so far as works executed departmentally in non-agency tracts are concerned.

In regard to works executed in Agency tracts, the section officer shall pay muster rolls without pre-audit by the Subdivisional Officer from his imprest, provided the outturn of work done by the coolies is up to the standard fixed in the schedule of rates, but this rule does not dispense with the duty imposed on the Subdivisional Officer to scrutinise the muster rolls frequently—vide note under clause (c) of this paragraph.

In cases where the outturn of work done by the coolies in the Agency tracts is not up to the standard fixed in the schedule of rates, if the deficit outturn does not exceed 10 per cent of the standard outturn, the Subdivisional Officer is empowered to pay muster rolls in *full* for reasons which should be *recorded*.

Add the following as note 2 to clause (b) of paragraph 203 of the Madras Public Works Department Code numbering the existing note as note 1:—

Note 2.—In the case of works in the Agency tracts, the limits up to which the three classes of officers referred to in the above rule can make advances to petty pattemakers shall be Rs. 100, Rs. 200 and Rs. 300, respectively.

Insert the following as a note under paragraph 179 of the Madras Public Works Department Code:—

Note.—In the Ganjam Agency where a system of securing unskilled labour called 'Vetti labour' is prevalent, the procedure described in the rules printed as Appendix XVIII shall be followed, the contract system of the Public Works Department, the system of preparation of detailed estimates for works and other rules of the department, such as maintenance of muster rolls for works executed departmentally, check-measurement of works, etc., being dispensed with.

The officers in charge of divisions in Agency tracts shall have powers to grant bonuses to a gang of coolies, who complete a certain work contracted to them within a fixed time up to a limit of Rs. 10 or 5 per cent of the total wages ordinarily paid to them for that work whichever is less.

Substitute the following for the note under paragraph 181, Public Works Department Code—Note 1 :—

In the Agency tracts other than the Ganjam Agency no formal agreement is necessary when the first and final payment to the piece-workers does not exceed Rs. 500 in respect of works and repairs, irrespective of the amount of the estimate.

Add the following as Appendix XVIII to the Madras Public Works Department Code :—

Rules for the execution of Vetti labour in the Ganjam Agency—please see Appendix II.

Substitute the following for note (2) under rule (10) of paragraph 330 of the Madras Public Works Department Code :—

Note 2.—Government tools may be lent as a special case to piece-workers in the Agency tracts for the execution of Government works in the Agency tracts, free of hire charges or a deposit on the responsibility of the Subdivisional Officer in charge of the work. If any of the tools lent be not returned full cost with centage should be recovered from the piece-workers. The percentage deduction as intimated above should be sufficient to cover the value of all tools lent.

APPENDIX II.

Agency works—Whether in charge of Revenue Officers as such or in charge of Revenue Officers acting as Public works disbursers or in charge of the Public Works Department.

1. The Deputy Tahsildar is usually in charge of all civil works in his taluk The most important of these are the repair and maintenance of roads, Government bungalows and schools. The first principle to remember is that all payments to Khonds and Savaras must be made directly by the Deputy Tahsildar to the Khonds or Savaras. It was formerly the practice in the Parlakimedi Agency to make all payments to the Bussayis The Bussayis kept most of the money and only a small fraction ever reached the Savaras. For a few years the roads in this Agency were under the supervision of the Special Forest Officer, Parlakimedi Maliahs. The result of this was an immediate improvement in the roads, for the Savaras found that they were being properly paid for their work. The history of the roads in Parlakimedi Agency is instructive. Owing to increase of work the Special Forest Officer was unable to continue in charge of the roads and the Tahsildar again took charge of them. An inefficient Tahsildar without taking the trouble to see whether the Savaras were doing their work or not paid them the sanctioned allotments though practically no work was done. One year the Agent found that, though only about Rs. 10 of work had been done on the Mondinga ghat road, the amount of money spent was almost equal to the whole cost incurred by the Special Forest Officer in laying out an entirely new road up the ghat a few years before.

2. Detailed estimates are not at present required for all Agency Civil works. This practice is based on the fact that all works are inspected by a responsible officer before they are paid for. In the case of roads it is sufficient to estimate the cost per mile. In the case of repairs to buildings particulars of the repairs (e.g., rethatching, new windows, etc.) should be stated.

3. Agency officers will find that the Khonds and Savaras will be much better satisfied if a small portion of the allotment is reserved and given to them as a present in the form of cheroots and snuff after the work is finished. Where a Patro has done specially good work and a money reward would be out of place a suitable form of reward is a cloth with his name inscribed in Oriya. Such rewards require the sanction of the Agent.

4. Any timber required for Agency Civil works (Public Works Department or Revenue) may be cut in the reserves. No accounts are maintained as between Forest and Public Works Department or Revenue. The permission of the Forest officers is not required. But the Tahsildar or Deputy Tahsildar or Assistant Engineer concerned must immediately notify his requirement to the Special Forest Officer, the Forest Assistant or Ranger and not remove the timber without notice to the Forest department. Every taluk officer and mutta head will keep a timber-yard for the seasoning of timber.

5. The preparation of annual budget estimates of works should be attended to personally by taluk officers and the Special Assistant Agents. The budget estimate will be drawn up in detail and contain in respect of each work particulars as to its situation, mileage, etc. Vague items such as "repairs to bridges in the taluk—Rs. 6,000" do not enable supervising officers to see whether the budget is a properly considered and intelligent one, and when works under such vague designation are executed, it will not be possible to check whether all the budgeted items have been carried out and duly paid for. The inclusion of indefinite items in budget estimates is therefore prohibited.

6. The ignorance of hillmen is apt to be taken advantage of by dishonest subordinates to obtain receipts from them for amounts not actually paid, according to the allotments in the sanctioned estimates. To facilitate proper supervision in this matter, taluk officers should maintain in respect of each item in the sanctioned budget a distribution statement in the sample form given below :—

Number in the sanctioned budget—Item 39—New Works—Communications Bridge at mile 101 on Kalipani road. Allotment Rs. 1,080.

Distribution of allotment.

	Rs.
Ryots of Topparikya mutta for gathering rough stone, timber, etc., and for unskilled labour at half rupee per house	55
Ryots of Ganthringia mutta for gathering rough stone, timber, etc., and for unskilled labour at half rupee per house	35½
Ryots of Lokhabadi mutta	70½
Do. of Kirtingia mutta	101
Do of Gudribadi mutta	140½
Note.—The ryots of each mutta to work by turns.	
Supervision charges for the Patro of Dharmapur for four months at Rs. 12 per month	48
Supervision charges to the heads of the five muttas at Rs. 5 for each ..	25
Supervision charges for ten Doudias ..	30
Wages for two sayers for forty-five days.	45
Wages for two carpenters for twenty days	60
Wages for four bricklayers for two months	320
Presentation money for deserving village officers and Khonds	50½
Total ..	1,080

The duty of verifying the disbursement of the allotment of each work according to the distribution statement lies primarily on the Special Assistant Agent. In his inspection notes of each taluk office, he should mention whether a distribution statement for each item of work was forthcoming and if not what steps he took to rectify the defect

7. (a) Where the amount asked for in the annual budget is sanctioned by Government the programme of works according to the budget should be generally executed without change Reappropriations will of course be proposed where necessary.

Where the amount sanctioned by Government differs from that asked for in the budget, the Special Assistant Agent should promptly prepare a revised programme of work and communicate it to the Deputy Tahsildars with instructions to prepare the distribution statement for each item of work. A copy of the revised programme must be submitted to the Agent to enable his office to maintain the progress register of works.

(5) For the execution of works, the Special Assistant Agents need not wait for the communication of the sanctioned allotments. In all possible cases, the works should be begun from 1st April irrespective of the receipt of sanctioned allotments and payments made up to 50 per cent of budgeted amounts applied for by the Special Assistant Agents.

8. The working season in the Agency begins generally in the month of October and lasts till the end of March unless any work has to be executed with special urgency. The distribution statements referred to above should be prepared far in advance of the working season, so that the Muttah heads and the hillmen may adjust their agricultural operations, etc., to work they know they will have to do for Government. The Special Assistant Agent should during his tours have advance payments for works made in his presence by the Deputy Tahsildars. Distribution statements prepared by Deputy Tahsildars should be closely inspected and rectified, if necessary. Both for ordinary Civil Agency works and for Public Works executed by the Special Assistant Agent an advance of half the estimated amount for vetti labour may be made in the presence of the Special Assistant Agent. Public Works department officers must also make the usual advances for vetti labour. The advances should be made in the presence of the Assistant or Executive Engineer. The Special Assistant Agents or Executive Engineer or Assistant Engineer must insist on taluk officers making such advances in their presence and inform the hillmen what further amount will be paid to them when the work is completed. This is a very important duty since it will prevent most of the irregularities generally committed by Agency subordinates. The conduct of a Tahsildar or Deputy Tahsildar who shirks payment of money in respect of costly works to hillmen in the presence of the Agent or the Special Assistant Agent or Executive Engineer or Assistant Engineer during their tours, will be open to suspicion. It is of course the duty of the Special Assistant Agent to afford full opportunities to taluk officers to make such payments in his presence. When he cannot tour in time to supervise these advance payments, he should ask the Deputy Tahsildar to make them himself.

9. The standard schedule of rates for Local Fund and P.W.D. works in the plains is too high and quite unnecessary, for the Agency vetti labour is much cheaper. All works should therefore be carried out by vetti labour as far as possible. For unskilled labour such as coolly work under masons and carpenters, gathering rough stone, gravel, lime and sand at the work spot or tamping or rolling down metal on roads, a lump sum for wages should be provided in the estimate, at so much per house in each of the villages to which the work is allotted. This lump sum for vetti labour should be fixed with reference to the number of days for which each village will have to work, the distance from which materials will have to be carried and the nature of the work to be done. For example, where concrete broken stone in mortar is to be laid or masonry work with rough stone is to be done, it is irregular to estimate at so much money per 100 c.ft. as our works are not given to any contractor. A lump sum should be provided for gathering rough stone, lime, etc., and for breaking stone into pieces of required dimensions; the amount of wages for bricklayers, etc., should be separately put down in the estimate; if cement or iron articles which cannot be had or manufactured in the Agency are required, the full amount required for purchasing and carting such materials should also be provided. The chances of Government money being embezzled are very much reduced when estimates are prepared in this manner. Any supervising officer can ask the hillmen how much money per house was paid to them in advance, he can also verify the stock of materials and the number of skilled workmen employed.

10. For new roads or for repairs to roads, the cost should be estimated at so much per mile instead of at so much per 100 c.ft. of metal or at so much per 100 sq. ft. of rolling. Each estimate should provide for supervision charges by Patrus and other village officers. It is undesirable to employ as maistris any unskilled workmen who are not *Sadhi* holders or dondias, etc. It is the village officers that get hillmen to gather materials in time and carry out the works.

11. Each bridge estimate should show detailed measurements of concrete foundations, masonry abutments, beams, decking, planks, etc. Each road estimate should show detailed measurements of metal, gravel and sand to be spread and rolled. It is only the rates for 100 cubic feet of material or 100 square feet of work that are unnecessary. Instead of these rates, the lump sum required for vetti labour, the wages for skilled workmen and the cost of cement, etc., should be mentioned. All estimates should be carefully checked by the Tahsildar or Deputy Tahsildar and the Special Assistant Agent before submission to the Agent.

12. Unless a Patru is the contractor, no agreements can or should be entered into for vetti labour, whether employed by the Revenue department or by the Public Works department.

EUROPEAN SCHOOL LEAVING CERTIFICATES—HIGH SCHOOL EXAMINATION, 1929.

INSTRUCTIONS FOR THE GUIDANCE OF HEADS OF SCHOOLS IN REGARD TO THE SUBMISSION OF CERTIFICATES FOR COMPLETION.

Heads of schools are requested to read very carefully the instructions relating to the submission for completion of European School-Leaving Certificates due in this office by the 3rd January 1930 and to see that every item is attended to carefully.

2. Although the 3rd January is the latest date fixed for the submission of certificates, it will be an advantage if the certificates can be sent as early as possible in December as this will facilitate the preliminary arrangements for tabulation. Heads of schools are accordingly requested to be good enough to send the certificates at as early a date as practicable. The certificates should not be sent in instalments; all the certificates of a school should be sent together.

3. The certificates should be sent preferably by registered post, packed in stout longcloth or other suitable material; parcels in which paper is used for packing are frequently damaged in transit, and arrive in a mutilated state.

4. In cases where the certificate of a candidate for the High School Examination is not sent for completion by reason of the candidate having absented himself from that examination or having failed to fulfil the conditions regarding attendance, etc., a letter explaining the circumstances should be submitted, the certificate number and name of pupil being mentioned therein.

5. Errors of omission and commission with regard to the entries in the certificate should be carefully avoided; the omission of a necessary entry or the existence of an incomplete or incorrect one necessitates correspondence and the progress of tabulation work is retarded which causes delay in the issue of completed certificates.

6. The entries on each page should be thoroughly and carefully scrutinized with a view to supplying omissions or rectifying mistakes. Alterations should invariably be attested with the Headmaster's initials.

7. In cases where pupils have been exempted by the Inspector of European Schools from the age rules, or from showing school record, or have been granted condonation of break or excused shortage of attendance the number and date of the order of the Inspector of European Schools should be quoted in the appropriate place in the certificate, e.g., on page 2 of the certificate against date of birth, in the case of age exemption, so that the completion of the certificate may not be objected to.

8. Particular care should be taken to see that the standard-average is entered in all certificates sent for completion and that the entry made is correct in all cases. Certificates in which the entry relating to the standard-average is omitted or incorrectly made will be returned.

9. The certificates of candidates who appeared for the Middle School Examination should not be sent with the certificates intended for completion. They will be called for by this office separately for purposes of entering the Middle School Examination marks.

10. It is requested that the report in the annexed form may be sent along with the certificates. A separate communication advising despatch of the certificates is not necessary.

ANNEXURE.

EUROPEAN SCHOOL LEAVING CERTIFICATES—HIGH SCHOOL EXAMINATION, 1929.

Report which should accompany the certificates sent for completion.

Name of school.

Number of pupils presented for the High School Examination.

Number of certificates sent for completion.

NOTE.—If the certificate of a pupil entered for the High School Examination is not sent, the reason why should be stated. Before sending the certificates for completion I have satisfied myself that—

(1) the date (i.e., day, month and year) of birth has been correctly entered on page 2 of each certificate.

(NOTE.—The entry according to the Christian era should be added where the main entry has been according to any other era);

(2) personal marks of identification have been obtained on page 3 of each certificate;

(3) the signature of the pupil has been obtained and the Headmaster has affixed his signature for each term of pages 5, 7, 11, 13 and 15, etc., where school marks have been entered in the certificate;

(4) the orders of the Inspector of European Schools granting age exemptions, abstract of attendance, condonation of breaks and exemption of school records have been quoted in the appropriate places in the certificates;

(5) all corrections in each certificate have been attested, and that all the instructions contained in letter R.O.C. No. 261/29, dated 4th November 1929, of the Inspector of European Schools have been carefully attended to.

SUGARCANE CROP OF 1929.

In Chittoor, the sugarcane crop slightly suffered from the insufficient supply of water in wells and the yield is expected to be a little below normal. The yield will be normal in the other districts if the season continues favourable.

GINGELLY CROP OF 1929-30.

Intermediate monthly report.

The recent rains were too late for the crop in Chingleput, South Arcot, Chittoor, North Arcot, and Salem. They were generally beneficial for the crop in the other districts where a normal yield is expected.

GROUNDNUT CROP OF 1929.

Intermediate monthly report.

The recent rains were too late for the early sown crops in most of the districts but have been beneficial for the late sown crops. The yield is expected to be below normal. Damage by hairy caterpillars is reported from parts of Salem, Coimbatore, Madura, and Ramnad. The harvest of the bunch variety has commenced in the Deccan, Chingleput, and South Arcot.

PADDY CROP OF 1929-30.

Intermediate monthly report.

The harvest of first crop paddy has been completed in Trichinopoly and the South. The yield was normal.

2. The harvest of early varieties of first crop paddy is in progress in Ganjam, East Godavari, and West Godavari. The yield is normal except in the uplands of Godavari (East and West) where the rainfall was insufficient.

3. The main crop has been affected by drought in Chingleput, South Arcot (except river-fed areas), Chittoor, and North Arcot. In Vizagapatam and Nellore, the yield may show reduction due to late season. The condition of the crop is fairly satisfactory in the other districts owing to the recent rains.

COTTON CROP OF 1929-30.

Intermediate monthly report.

In the Central districts and the South, sowings of cotton are still in progress. The area is expected to be about normal. Damage of the early sown crop from insect attack is reported from the taluks of Tiruchengode and Rasipuram of Salem, Erode, Bhavani, and Gobichettipalaiyam of Coimbatore and Sattur of Ramnad and resowing had to be done in parts.

2. In the Deccan, *mungari* or early sown cotton has been benefited by the rains received in October and pickings have commenced. The continued rains in October however retarded the growth of the *kungani* or late sown cotton, but the crop is reviving at present.

3. The condition of the crop in the other districts is fair.

TENDER FOR THE SUPPLY OF MISCELLANEOUS ARTICLES TO THE CENTRAL JAIL, VIZAGAPATAM.

Notice is hereby given that the Superintendent, Central Jail, Vizagapatam, will receive tenders at the Central Jail up to 10 a.m. on Friday, the 6th December 1929, and the auction will be held on Monday, the 9th December 1929, at 2 p.m. for the supply of miscellaneous articles mentioned in the annexed schedule which are required from 1st January 1930 to the 31st December 1930. Sealed tenders will be accepted provided they reach the Superintendent on or before the day mentioned above and are accompanied by the earnest money specified in the schedule. Tenders should be superscribed "Tender for the supply of raw materials and miscellaneous articles for the Manufactory Department, Central Jail, Vizagapatam". The rates offered should be entered in the tender form in words as well as in figures. Samples of such of the articles as are available can be seen on application at the jail. Tenders will be accepted according to groups and rates should be quoted for all articles comprised in the group. All supplies must be up to the samples accepted by, or approved by, the Superintendent.

2. Successful tenderers will be required to enter into stamped agreement with the jail within seven days from the date of receipt of intimation by them that their rates have been accepted. In addition to that, they should before signing such agreement deposit security of 15 per cent of the total value of the supplies undertaken. Failing compliance within the time specified the earnest money may be confiscated and in the event of withdrawal they will also be liable to pay any difference between accepted and those ultimately obtained by the jail. The earnest money received from the successful tenderers will be taken towards their security deposits and those from others returned.

3. The Superintendent reserves to himself the right to accept or reject any tender without assigning any reason.

4. Contracts should not be sublet.

5. Any rates accepted and contracts entered will be subject to the confirmation by the Inspector-General of Prisons, whose decision also shall be final in all questions of infringement of contract.

6. As the quantities given in each article in the schedule are only approximate, contractors will be under no obligation to supply the entire requirements during the period of contract plus so much as may be needed to last for a whole month thereafter provided in respect of extra quantities that written orders are given within a fortnight of the termination of the agreement. At the same time the Superintendent does not bind himself to receive quantities or numbers noted in the schedule if they are not required.

7. No article is to be supplied to the jail except on a requisition signed by the Superintendent or some responsible person authorized by him in writing to do so "by order".

8. No advance of cash will on any account be made to the contractors when giving orders, nor will the jail pay freight or other charges on consignments to be afterwards deducted from bills, but payments for articles delivered at the jail on order will be made promptly after they have been inspected and passed. The contractor shall submit to receive payment of his bill in whole rupees (i.e., fractions of less than half are disregarded and half a rupee and over are taken as a rupee) in the case of bills amounting to Rs. 25 and upwards and the totals of bills for less than Rs. 25 should be rounded to the nearest anna (i.e., amounts below six pies and above are taken as an anna).

9. Contractors are required (under a penalty not exceeding Rs. 25) to invariably send with each supply a memorandum or advice note duly signed, showing the number or quantity tendered for acceptance. Also to sign and return within a week of payment by cheques, cash orders, or remittance (transfer) receipts, all connected bills forwarded by the Superintendent for the purpose. Questions in connexion with any supposed short payment may be referred to the Superintendent separately but are not to be made an excuse for delay or refusal to sign.

10. In addition to any difference in prices that may be recovered from contractors on account of purchase rendered necessary elsewhere by failure,

neglect, or refusal on their part to supply according to the terms of their agreement, a fine not exceeding Rs. 50 may be levied at the discretion of the Superintendent for each and every such case of default. For repeated infringement of the stipulations of the contract or for other justifiable reasons he may also annul it, recovering all losses sustainable by the jail in consequence of the annulment from the security deposited by the contractors or other money due to them, and in the event of any residue by legal measures if so advised.

11. All wastage found to occur in excess of the respective percentages prescribed in the schedule will have to be made good by the contractors.

12. Further information on any point concerning this notification can be had from the jail office.

13. When once the rates offered at an auction or by tender have been accepted, lower quotations from others to the Superintendent or to the Inspector-General of Prisons, will not be considered.

8. No advance of cash will on any account be made to the contractors when giving orders, nor will the Jail pay freight or other charges on consignments to be afterwards deducted from bills, but payment for articles delivered at the Jail on order will be made promptly after they have been inspected and passed. Contractors must submit to receive payment of their bills in whole rupees in the case of bills amounting to Rs. 25 and upwards, to which sad annas forming part or the sum due on each bill will be disregarded, unless they constitute a fraction equivalent to half rupee or more, when they will be treated as a whole rupee for the purposes of the account. The totals of bills for less than Rs. 25 are rounded off to the nearest anna (i.e., amounts below six pies are disregarded and six pies and above are taken as an anna)

9. During the prevalence of plague in the vicinity of the Jail or in that of the areas from which supplies are drawn, all grain, etc., will be liable to be first exposed to the sun outside before being taken in; also if for any other reason the Superintendent considers exposition of articles to sun necessary.

10. Contractors are required (under a penalty not exceeding Rs. 25) to invariably send with each supply a memorandum or advice note, duly signed, showing the number or quantity tendered for acceptance. Also to sign and return, within a week of payment by cheque, cash order, or remittance transfer receipts, all connected bills forwarded by the Superintendent for the purpose. Questions in connexion with any supposed short payment may be referred to the Superintendent separately, but are not to be made an excuse for delay or refusal to sign.

11. In addition to any difference in prices that may be recoverable from contractors on account of purchase rendered necessary elsewhere by failure, neglect or refusal on their part to supply according to the terms of their agreements, a fine not exceeding Rs 50 may be levied at the discretion of the Superintendent for such and every such case of default. For repeated infringement of the stipulations of the contractor or other justifiable reasons, he may also annul it, recovering all losses sustainable by the Jail in consequence of the annulment, from the security deposited by the contractors, or other monies due to them, in the event of any residue, by legal measures if so advised.

12. All wastage found to occur in excess of the respective percentages prescribed in the schedule will have to be made good by the contractors.

13. Further information on any point concerning this notification can be had from the Jail office.

14. When once the rates offered at an auction or by tender have been accepted, lower quotations from others to the Superintendent or to the Inspector-General of Prisons will not be considered.

AUCTION AND TENDER FOR THE SUPPLY OF RAW MATERIALS AND MISCELLANEOUS ARTICLES REQUIRED FOR THE MANUFACTORY DEPARTMENT, CENTRAL JAIL, BELLARY.

NOTICE is hereby given that the Superintendent will hold an auction at the Central Jail, Bellary, at 2 p.m. on Monday the 9th December 1929, for the supply of the following articles of raw materials for the manufactory department during the year 1930. Intending bidders are requested to be punctual. In the case of suppliers who may be unable to attend the auction, sealed tenders will be accepted, provided they reach the Superintendent on or before the day and hour mentioned above and are accompanied by the earnest money specified in the schedule. Tenders, which will only be received on printed forms to be had free of cost on application, should be superscribed "Tender for the supply of raw materials and miscellaneous articles for the manufactory department, the Central Jail, Bellary". They will be opened at the time of auction and the offered rates considered along with the bids. The rates should be quoted in pounds and ounces per rupee for delivery at the Central Jail, Bellary, the quantities being specified in words as well as in figures. Samples of the articles required can be seen at the auction. Suppliers may bid or tender for all or any one of the articles mentioned in the schedule on depositing the requisite earnest money. All supplies should be up to the samples accepted by them or approved by the Superintendent.

2. Contractors are requested to produce a solvent certificate from the Tahsildars of their taluks before entering the auction room or along with their tenders if sent by post.

3. Successful bidders or tenderers will be required to enter into stamped agreement with Jail within seven days from the date of receipt of intimation by them that their rates have been accepted. In addition, they should, before signing such agreement, deposit a security of 10 per cent of the total value of the supplies undertaken. (With the approval of the Inspector-General of Prisons, the total amount may be reduced in the case of approved contractors.) Failing compliance within the time specified, the earnest money may be confiscated, and, in the event of withdrawal, they will also be liable to pay any difference between the prices accepted and those ultimately obtained by the Jail. The earnest money received from successful bidders or tenderers will be taken towards their security deposits and those from others returned at the close of the auction.

4. The Superintendent reserves the right to accept or reject any bid or tender without assigning any reason.

5. Contracts should not be sublet.

6. Any rates accepted and contracts entered into will be subject to confirmation by the Inspector-General of Prisons, Ootacamund, whose decision shall also be final in all questions of infringement.

7. As the quantities given against each article in the schedules are only approximate, contractors will be under an obligation to supply the entire requirements during the period of the contract, plus so much as may be needed to last for a whole month thereafter, provided, in respect of the extra quantities, that written orders are given within a fortnight of the termination of the agreement. At the same time, the Superintendent does not bind himself to receive the quantities or numbers noted in the schedule if they are not required.

8. No article is to be supplied to the Jail except on a requisition signed by the Superintendent or some responsible person authorised by him in writing to do so 'by order.'

9. (i) No advance of cash will on any account be made to the contractors when giving orders, nor will the Jail pay freight or other charges on consignments to be afterwards deducted from bill; but payment for articles delivered at the Jail on order will be made promptly after they have been inspected and passed. Contractors must submit to receive payment of their bills in whole rupees to which end annas forming part of the sum due on each bill will be disregarded, unless they constitute a fraction equivalent to half-rupee or more, when they will be treated as a whole rupee for the purpose of the account.

(ii) During the prevalence of plague in the vicinity of the Jail or in that of areas from which supplies are drawn, the articles are liable to be first exposed to the sun outside before being taken in; also, if for any other reason, the Superintendent considers exposition of the articles to the sun necessary.

10. Contractors are required (under a penalty not exceeding Rs. 25) to invariably send with each supply a memorandum or advice note duly signed, showing the number or quantity tendered for acceptance. Also to sign and return within a week of payment by cheques, cash orders, or remittance transfer receipts, all connected bills forwarded by the Superintendent for the purpose. Questions in connexion with any supposed short payment may be referred to the Superintendent separately, but are not to be made an excuse for delay or refusal to sign.

11. In addition to any difference in prices that may be recovered from contractors on account of purchase rendered necessary elsewhere by failure, neglect, or refusal on their part to supply according to the terms of their agreements, a fine not exceeding Rs. 50 may be levied at the discretion of the Superintendent for each and every such case of default. For repeated infringement of the stipulations of the contract or for other justifiable reasons, he may also annul it, recovering all losses sustainable by the Jail in consequence of the annulment from the security deposited by the contractors or other money due to them, and in the event of any remedy, by legal measures, if so advised.

12. All wastage found to occur in excess of the respective percentages prescribed in the schedule will have to be made good by the contractors.

13. Further information on any point concerning this notification can be had from the Jail office.

Intending bidders are requested to be punctual. They should deposit for gingelly seeds Rs. 60, Rs. 200 for teakwood and Rs. 20 for rest of the articles as earnest money which, in the case of unsuccessful bidders, will be returned immediately after the auction is over. Tenders, which will only be received on printed forms to be had free of cost on application, should be superscribed "Tender for the supply of miscellaneous articles to the Borstal School, Tanjore." The rates should be quoted in pounds and ounces per rupee for delivery at the Borstal School, Tanjore, the quantities being specified in words as well as in figures. Suppliers may tender for all or any one of the articles mentioned in the schedule on depositing the requisite earnest money. All supplies must be up to the samples accepted by them or approved by the Superintendent.

2. As far as practicable samples must be sent along with quotations.

3. Successful tenderers will be required to enter into stamped agreements with the school within seven days from the date of receipt of intimation by them that their rates have been accepted. In addition, they should, before signing such agreements, deposit a security of 10 per cent of the total value of the supplies undertaken. With the approval of the Inspector-General of Prisons, the total amount may be reduced in the case of approved contractors. Failing compliance within the time specified, the earnest money may be confiscated, and in the event of withdrawal they will also be liable to pay any difference between the prices accepted and those ultimately obtained by the school. The earnest money received from successful bidders or tenderers will be taken towards their security deposits and those from others returned at the close of the auction.

4. The Superintendent reserves the right to accept or reject any bid or tender without assigning any reason.

5. Contracts should not be sublet.

6. Any rates accepted and contracts entered into will be subject to confirmation by the Inspector-General of Prisons, Ootacamund, whose decision shall also be final in all questions of infringement.

7. As the quantities given against each article in the schedule are only approximate, contractors will be under an obligation to supply the entire requirements during the period of the contract plus so much as may be needed to last for a whole month thereafter, provided, in respect of the extra quantities, that written orders are given within a fortnight of the termination of the agreement. At the same time, the Superintendent does not bind himself to receive the quantities or numbers noted in the schedule if they are not required.

8. No article is to be supplied to the school except on a requisition signed by the Superintendent or some responsible person authorized by him in writing to do so "by order."

9. No advance of cash will on any account be made to the contractors when giving orders, nor will the school pay freight or other charges on consignments to be afterwards deducted from bills, but payment for articles delivered at the school on order will be made promptly after they have been inspected and passed. Contractors must submit to receive payment of their bills in whole rupees, to which end annas forming part of the sum due on each bill will be disregarded, unless they constitute a fraction equivalent to half rupee or more, when they will be treated as a whole rupee for the purpose of the account.

10. During the prevalence of plague in the vicinity of the school or in that of the area from which supplies are drawn, all grain, etc., will be liable to be first exposed to the sun outside before being taken in. Also if for any other reason the Superintendent consider exposition of articles to sun necessary.

11. Contractors are required under a penalty not exceeding Re. 25 to invariably send with each supply, a memo, or advice note, duly signed shewing the number or quantity tendered for acceptance. Also to sign and return within a week of payment by cheque, cash order, or remittance transfer receipts, all connected bills forwarded by the Superintendent for the purpose. Questions in connexion with any supposed short payment may be referred to the Superintendent seperately, but are not to be made an excuse for delay or refusal to sign.

12. In addition to any differences in price that may be recoverable from contractors on account of purchase rendered necessary elsewhere by failure, neglect, or refusal on their part to supply according to the terms of their agreements, a fine not exceeding Rs. 50 may be levied at the discretion of the Superintendent for each and every such case of default. For repeated infringement of the stipulations of the contract or for other justifiable reasons, he may also cancel it, recovering all losses sustainable by the school in consequence of the annulment, from the security deposited by the contractors, or other moneys due to them, and, in the event of any residue, by legal measures if so advised.

13. All wastage found to occur in excess of the respective percentages prescribed in the schedule will have to be made good by the contractors.

14. Further information on any point concerning this notification can be had from the office of this school.

15. When once the rates offered at an auction or by tender have been accepted, lower quotations from others to the Superintendent or to the Inspector-General of Prisons will not be considered.
